Works with all UNI Take&Talk's cradles.

- Can be combined with all leading makes of mobile phone
- Cradles can be replaced without having to change the base set, no tools needed
- Possesses the e1-type approval required by law
- Supports connections to laptops or PDAs via a data cable**
- Improved transmission and reception performance due to the external antenna**
- Supports the charge function for the mobile phone
- Integrated switch box for using the vehicle's internal speakers
- Radio-Mute Function

EASY INSTALLATION

The particular feature of the UNI CarTalk DSP is that it combines universality with optimum voice and audio quality.

Top quality at a price you can afford, these are compelling reasons to buy the UNI CarTalk hands-free car kit.

Dock your mobile phone-specific cradle from the UNI System 8 range, along with your mobile phone, in the securely mounted universal docking cradle. Used together with a data-enabled mobile phone***, the existing data port on the mobile phone cradle enables you to connect your mobile phone to a laptop or PDA using a data cable**. This allows you to turn your car into an office on wheels.

You will find a comprehensive list of the available products on the Internet at www.thb.de or by calling the THB hotline on 00800 / 842 468 54 63.
